

A Greater Healing

Verse 1:

You prayed for a healing but your loved one still passed on
It's hard for you to understand what you feel has turned out wrong
You trusted God, you know He cares He did not shun your faith
For He with love heard all your prayers and answered them His way

Chorus:

There's been a healing for those you think have died
So wipe the tears you've cried they've made it home
They're fully living a life they've never known
Their suffering is gone there's been a healing, a greater healing

Verse 2:

The blind man received vision the woman touched his hem
The leper went down seven times and Lazarus lived again
Though all received a healing touch still death would take them too
But Earthly loss is Heaven's gain from forever's point of view

Chorus:

There's been a healing for those you think have died
So wipe the tears you've cried they've made it home
They're fully living a life they've never known
Their suffering is gone there's been a healing, a greater healing
