

## Beauties

### Verse 1

I look around and see all the beauties You have made, I see the sun I see the moon and the ocean waves, and I think to myself, how wonderful You are, and I'll never forget, how you changed my heart

### Chorus

You've given us so many things, how could we ask for more, You put stars in the night sky and waves on the ocean floor, the things all around us were made by your hands, we thank you for the beauties You've placed here for man

### Verse 2

I step outside my front door and see the big green trees, I feel the warmth of the sun and the summer breeze, and my heart starts beating faster than before, because I get so excited, that You are my Lord

### Chorus

You've given us so many things, how could we ask for more, You put stars in the night sky and waves on the ocean floor, the things all around us were made by your hands, we thank you for the beauties You've placed here for man

### Chorus

You've given us so many things, how could we ask for more, You put stars in the night sky and waves on the ocean floor, the things all around us were made by your hands, we thank you for the beauties You've placed here for man
