

Everlasting Water

Verse 1:

A woman at the well went to draw water
But when she got there received something more
There sat a man Who was different from others
She could feel there was something in store
With compassion in His voice He said make me your choice
I'll give you something the world cannot beat
When you taste of this water there'll be a cleansing and satisfaction is guaranteed

Chorus:

Are you thirsting for something
More than just water
Because you know
That's not what you need
Is your soul a little dry
From the tears you have cried
You're hurting and just need some peace
Jesus is waiting
For you to just ask him
To give you the drink that you need
He'll give you that water
That everlasting water
And you'll never thirst again

Verse 2:

I once was like that woman sitting by the well side
I was so lost and unsatisfied
I couldn't figure out just what I was missing
But I could feel something stirring inside
Then I heard about a man Who died between two thieves
He loved me so much He chose death for me
He took away my sins and gave me a new life
Signed my pardon so I could go free

Repeat Chorus
