

I'll Get There

Verse 1

Take a look at me, You may not see what you think that I should be, I may stumble and fall, But I'll get back up even if I have to crawl, Like a baby takes it's first steps, I find stability, When I reach up He reaches down, And quickly catches me

Chorus

I'll get there, When I get there, God has a plan for me, 'cause I've been there, But I'm not where, His work is complete, He's molding, shaping, rearranging, I'm safe in His care, So I'll get there, When I get there

Verse 2

Don't judge me now, 'cause He'll make me perfect in His sight somehow, It may not happen here, But I know that His reflection will appear, When we look into the mirror , We only see today, But He sees what the future holds , And It's not that far away

Chorus

I'll get there, When I get there, God has a plan for me, 'cause I've been there, But I'm not where, His work is complete, He's molding, shaping, rearranging, I'm safe in His care, So I'll get there, When I get there

Bridge

Many things about tomorrow, I don't seem to understand, But I know who holds tomorrow

Chorus

I'll get there, When I get there, God has a plan for me, 'cause I've been there, But I'm not where, His work is complete, He's molding, shaping, rearranging, I'm safe in His care, So I'll get there, When I get there
