

Little Things

Verse 1:

Have you ever seen a sparrow and watched it as it flies
It never sows or reaps yet all its needs the Lord supplies
We're much more valuable to Him than this
So look around and try not to miss

Chorus:

It's the little things that bring us to our knees
The kindness and compassion to supply the things we need
The love He shows in all His subtle ways
In things we take for granted every single day
It's the little things that amaze me

Verse 2:

The freedom to worship and praise the King of Kings
The words that He gives us to the songs that we sing
The breath in our lungs for us to breathe
The things that He does that we can't see

Chorus:

It's the little things that bring us to our knees
The kindness and compassion to supply the things we need
The love He shows in all His subtle ways
In things we take for granted every single day
It's the little things that amaze me

Bridge:

The health in our bodies
A place to lay our heads
Safety when we travel
And food to keep us fed

Chorus:

It's the little things that bring us to our knees
The kindness and compassion to supply the things we need
The love He shows in all His subtle ways
In things we take for granted every single day
It's the little things that bring us to our knees
The kindness and compassion to supply the things we need
The love He shows in all His subtle ways
In things we take for granted every single day
It's the little things that amaze me
