

Long Gone

Verse 1:

He carried the cross said, "Father forgive" then he died there on that hill
They laid His body in a borrowed tomb for this was the Father's will
But on the third day when they came to grieve the stone was rolled away
He said He'd rise it was no surprise in the grave He did not stay

Chorus 1:

He was long gone He took the keys to death, hell, and the grave
Long gone from the prison cell Satan thought he'd made
All the victory from the enemy was a big mistake
'Cause He was long gone, long gone, yea
Long gone, long gone, yea

Verse 2:

I once was headed down a dead end road didn't know which way to go
Searching for love in all the wrong places I wound up hurt and broke
But then my heart changed when I let Him in Jesus saved my soul from sin
He picked me up took the shattered pieces put them back together again

Chorus 2:

Now it's long gone the pain I felt I'd carried for so long
Long gone the broken heart I traded for a song
All the tears I cried over every lie the devil tried to tell
Now it's long gone, long gone, yea
Long gone, long gone, yea

Chorus 2:

Now it's long gone the pain I felt I'd carried for so long
Long gone the broken heart I traded for a song
All the tears I cried over every lie the devil tried to tell
Now it's long gone, long gone, yea
Long gone, long gone, yea
