

You Have Overcome

Verse 1:

When you're down in the mist of despair
It feels like no one really cares
You can't find a way up for being pushed back down
There's no relief that can be found
Then God steps in for you right on time
Turns things around right before your eyes
He dries every tear that you have cried
Now you can testify

Chorus:

You're an overcomer by the word of your testimony
You're an overcomer by the blood of Christ
You can move forward in the name of Jesus
You can press on because he paid the price
Even when the devil tries to bring you down
And remind you of the failures that kept you bound
Remind him where God has brought you from
'Cause you have overcome

Verse 2:

You may be facing a world of pain
Looking for the sun but only get rain
Things are happening now that you don't understand
You're being stretched like a thin rubber band
The devils trying hard to get a hold of you
But my friend there's one thing that you must do
Take up your sword and shield of faith
And put that devil in his place

Chorus:

You're an overcomer by the word of your testimony
You're an overcomer by the blood of Christ
You can move forward in the name of Jesus
You can press on because he paid the price
Even when the devil tries to bring you down
And remind you of the failures that kept you bound
Remind him where God has brought you from
'Cause you have overcome

Chorus:

You're an overcomer by the word of your testimony
You're an overcomer by the blood of Christ
You can move forward in the name of Jesus
You can press on because he paid the price
Even when the devil tries to bring you down
And remind you of the failures that kept you bound
Remind him where God has brought you from
'Cause you have overcome
